PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 2+ years of experience building scalable, high-performance web applications using the **MERN stack (MongoDB, Express, React, Node.js)**, **Next.js**, and **TypeScript**. Strong foundation in **Pure Mathematics** that enhances analytical thinking, system design, and problem solving. Proven track record of improving performance, code quality, and developer workflows. Seeking opportunities to contribute to high-impact engineering teams.

CORE SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Tools & DevOps: Git, GitHub Actions (CI/CD), Jest, React Testing Library, SonarQube, Axios, React Query

Concepts: SSR, SSG, ISR, Performance Optimization, Responsive Design, Unit Testing, Clean Architecture

PROFESSIONAL EXPERIENCE

Full-Stack Developer (MERN)

Adonai Global Solutions Ltd — Lagos, Nigeria

September 2025 – Present

- Develop and maintain full-stack web applications using **MongoDB, Express, React, and Node.js (MERN)**.

- Build reusable, scalable React components and maintain clean architecture across projects.
 - Design and integrate RESTful APIs, improving data reliability and reducing client-side errors.
 - Collaborate with designers and stakeholders to translate business requirements into technical solutions.
 - Optimize application performance and ensure cross-browser compatibility.
-

Front-End Developer

Spraditech Digital Solutions — Akoka, Lagos

February 2025 – October 2025

- Developed and maintained **10+ production web applications** using React, Next.js, and TypeScript.
 - Improved average page load time by **35%** through SSR/ISR, code splitting, and lazy loading (measured via Lighthouse).
 - Built fully responsive interfaces with HTML, Sass, and Bootstrap, improving mobile usability by **40%**.
 - Integrated **15+ APIs** using Axios and React Query, reducing data fetch errors by **25%**.
 - Achieved **95+ Lighthouse performance scores** across multiple projects.
 - Enforced strong testing culture using Jest and React Testing Library, reducing post-release bugs by **30%**.
 - Led migration of legacy JavaScript code to TypeScript, resolving **200+ type issues** and improving maintainability.
 - Introduced CI/CD pipelines with GitHub Actions, reducing deployment time by **50%**.
-

EDUCATION

University of Lagos (UNILAG) — Lagos, Nigeria

B.Sc. Pure Mathematics (2017 – 2023)

Relevant focus areas: - Calculus, Linear Algebra, Abstract Algebra - Real & Complex Analysis - Differential Equations, Topology - Logical reasoning and advanced problem solving applied to software development

SELECTED ACHIEVEMENTS

- Boosted SEO rankings by **20%** through optimized Next.js rendering strategies.

- Improved onboarding speed for new developers by **40%** through internal documentation and code standards.
- Delivered consistent, maintainable codebases recognized for clarity and scalability in team reviews.
